

# Muhammad Zohaib Khalid

Senior React Engineer

Pakistan (Lahore) | zohaibkhalid2198@gmail.com | +92-318-5263566

LinkedIn: <https://www.linkedin.com/in/zohaib-khalid2198/>

## PROFESSIONAL SUMMARY

Senior Software Engineer with **5+ years** of experience building **large-scale, high-performance** web applications. Specialized in **micro-frontend architecture**, scalable frontend systems, and modern JavaScript frameworks. Led frontend teams of **20+ engineers**, owning architecture, code quality, and delivery. Built and optimized systems serving **large users**. Experienced across fintech, AI integrations, and blockchain platforms.

## CORE SKILLS

**Frontend:** React, Next.js, Tailwind, Material UI, Chakra UI

**Architecture:** Micro-Frontends, Modular Architecture, Atomic Design

**State Management:** Redux, Redux Toolkit, Recoil

**Backend:** Node.js

**Cloud & Tools:** AWS, Cloudflare, Git, Jira, Trello, Bitbucket, Heroku, Vultr

## PROFESSIONAL EXPERIENCE

### Principal Software Engineer — Innovatix (formerly Macrosoft) | Mar 2025 - Present

- As a **Financial Analyst (engineering role)**, developed and delivered key features for:
  - **Historical Financials (HF):** Built data-driven interfaces to visualize multi-year financial data using **FNCodes**, enabling deep financial analysis.
  - **HPS (Hierarchical Product Sales):** Implemented region-based **actuals and estimates** for sales and revenue, improving business insights and reporting accuracy.
- As an **Event Analyst (engineering role)**, implemented event integration workflows across multiple master data domains including **Drug, Trial, and Organization**, enabling structured event tracking and association across systems.
- Conducting code reviews, hiring, and mentoring.
- Collaborated with data science teams on financial forecasting systems (enterprise-grade platform).

### Senior Software Engineer — Abizsol | May 2024 - Mar 2025

- Led development of **URQA**, a scalable multi-tenant education platform (LMS, CMS, HRM, E-commerce) enabling organizations to deliver and manage digital learning experiences.

- Architected and implemented a **micro-frontend system**, allowing independent module development and seamless scaling across products.
- Designed a **multi-tenant architecture** where each organization operates on a dedicated subdomain (e.g., org\_name.urqa.com) with customized branding, content, and workflows.
- Built core LMS features enabling:
  - Teachers to create and manage **courses, quizzes, and exams**
  - Students to **learn, track progress, and interact** within the platform
  - Interactive learning through **flashcards, mock data, quizzes, and fill-in-the-blank exercises**
- Implemented workflows for **user onboarding and role management**, including organization owners, teachers, and student enrollment with approval systems.
- Enabled **in-platform student engagement**, including progress tracking and Q&A between students and instructors.
- Managed a cross-functional team of **10+ engineers**, overseeing delivery, architecture decisions, and development workflows.
- Improved development speed and modularity through architectural decisions, enforcing **frontend best practices and code quality standards**.

#### **Principal Software Engineer — Villaex | Mar 2023 – Apr 2024**

- Built AI-powered applications using OpenAI integrations (product-level work).
- Designed scalable frontend systems and reusable component libraries.
- Delivered high-performance applications with modern UX practices.

#### **Senior Software Engineer — Technowis | Feb 2022 – Jun 2023**

- Developed blockchain platforms including midl.finance and publicator.io.
- Built NFT marketplaces and decentralized applications.
- Optimized frontend performance and scalability.

#### **Junior Software Engineer — The Trade Network | Jan 2021 – Oct 2021**

- Built a marketplace platform for heavy-duty trucks and parts from scratch.
- Delivered full-stack features including listings, search, and transactions.

## **EDUCATION**

NUST, Islamabad — Bachelor's in Computer Engineering (2016 – 2020)

## **AWARDS & CERTIFICATIONS**

Final Year Project Gold Medalist

FICS Winner

HCNA Certified
